

**Project Overview:**

FMA Process Engineers, based in Lichfield in UK have long standing relationships with both Ab InBev as a client and MGT Tanks & Mixing as a supplier. When Ab InBev approached FMA regarding their requirement for new Yeast Washing vessels, FMA then contracted MGT to design and manufacture 2 x 15,000ltr AISI 316L Stainless Steel Yeast Washing Vessels.

**Scope of Project:**

- 🔧 Design, manufacture and testing of 2 x 15,000ltr AISI 316L Stainless Steel Yeast Washing Vessels & Agitators
- 🔧 Full delivery of vessel and agitator to Samlesbury, UK
- 🔧 Pre-delivery assembly and comprehensive testing of all units prior to shipping
