

Project Overview:

When Dairy Crest decided to break ground on a substantial upgrade to their cheese processing facility in Davidstow in Cornwall UK, they contacted MGT and after consultation between both parties the decision was made by Dairy Crest to purchase the following vessels and agitators from MGT;

- ◆ 6 x 7,500ltr AISI 316L Stainless Steel Reaction Tanks & Agitators
- ◆ 2 x 10,000ltr AISI 316L Stainless Steel Carbon Treatment Tanks
- ◆ 2 x 15,000ltr AISI 316L Stainless Steel Nano Filtration Tanks
- ◆ 2 x 30,000ltr AISI 316L Stainless Steel Evaporator Buffer Vessels
- ◆ 1 x 15,000ltr AISI 316L Stainless Steel Syrup Tank & Agitator
- ◆ 1 x 15,000ltr AISI 316L Stainless Steel Fresh Water Tank
- ◆ 1 x 15,000ltr AISI 316L Stainless Steel Acid Tank
- ◆ 1 x 15,000ltr AISI 316L Stainless Steel Hot Water Tank
- ◆ 1 x (2 x 30,000ltr) AISI 316L Stainless Steel Hot Water Recovery Tanks – Double Stack.

Scope of Project:

- ◆ Design, manufacture and testing of all vessels and agitators as per agreed technical drawings
- ◆ Pre-delivery assembly and comprehensive testing of all units prior to shipping
- ◆ Full delivery of all vessels and agitators to Dairy Crest, Davidstow, Cornwall UK
